

INFLATABLE NAVAL TARGETS **PROTEUS**

Proteus is a family of inflatable naval targets for gunnery practices. Two models: Proteus Adrift Target (PAT) and Proteus Towed Target (PTT).

Available with different shapes, sizes and colors. Possibility to integrate additional equipment to increase radar/infrared signature and strobe lights.

DEFENCE APPLICATIONS

- Surface-surface gunnery training
- Air-surface gunnery training
- Testing attack procedures

**HIGH STABILITY | DURABILITY | ADAPTABLE
| AD-HOC SOLUTION |**

Model	PAT-3 / PAT-6	PTT-3 / PTT-6
Type	Inflatable adrift (cubic shape)	Inflatable towed
Side length	3 – 6 meters	n/a
Length	n/a	3 – 6 meters
Diameter	n/a	0.8 – 1.5 meters
Weight	10 – 40 Kg	8 – 25 Kg
Colors	Orange, yellow, red, white (others under request)	
Optional equipment	Signature augmentation equipment, strobe lights, radar reflector, reflective tape. Ad-hoc shapes and sizes.
